Office of Student Financial Assistance (OSFA)  
Bright Futures Scholarship Program (BF)

2020-21
All requirements are subject to change with each legislative session.

A Bright Futures Scholarship requires a standard Florida high school diploma, unless the student earns a high school diploma from a non-Florida school while living with a parent or guardian who is on A) military or B) public service assignment away from Florida.

A. Military assignment is defined as active duty in all branches of the Armed Services.

B. Public service assignment is defined as the occupational assignment of a Florida resident employed by the United States Government or State of Florida, who as a condition of initial public service employment, is relocated from Florida to work outside the State of Florida.

A student whose parent or guardian is on public service assignment may reside with either natural parent or another adult designated by either natural parent or guardian.

BRIGHT FUTURES and the OUT-OF-STATE (OOS) STUDENT

Program Requirements (no substitutions): A checklist is provided at the end of this guide to assist the student in submitting all required documentation.

1. Meet the general requirements for the Florida Bright Futures Scholarship Program.

2. Have one parent who is a Florida resident and is: A) serving active duty in the military or B) on public service assignment away from Florida (see above) during the student's last year of high school.

3. Submit a completed Florida Financial Aid Application (FFAA) online during the last year in high school (after October 1 of the last year and prior to graduation) or call OSFA Customer Service at 888-827-2004 to request a hardcopy application form. The application gives the Florida Department of Education (FDOE) permission to evaluate the student's high school transcript(s) for eligibility for a Florida Bright Futures Scholarship.

4. Submit official high school transcript(s) showing all high school coursework attempted along with a course key. Coursework must align with the State University System admission requirements found in regulation 6.002. Parental transcripts are not accepted.

A student's transcript, including courses in progress for the final semester and other documentation, may be submitted to the FDOE after the first semester of the last year has been completed. FDOE will evaluate the student for eligibility and provide official award notification prior to graduation. The student needs to send the end-of-year transcript (including graduation date) for a final evaluation to learn if the award status may be improved.

Official transcripts should be sealed in the original envelope from the school. If the high school is able to send secure electronic transcripts (or if the school contracts with a third-party transcript service), an official transcript may be emailed to OSFA.Transcripts@fldoe.org. We do not accept photocopied or unofficial transcripts. Only official transcripts sent to the FDOE via this secured method from the originating school or transcript service may be used in an official evaluation for the Bright Futures Scholarship Program.

5. Submit ACT®/SAT® college entrance exam test scores. Test scores for tests taken through June 30 of the student's last year in high school will be admissible for a Bright Futures evaluation. Students can provide test scores to OSFA through one of the following mechanisms:

- Request the test scores be sent to one of Florida's public state universities when the student registers for the tests so that the test scores are sent to the FDOE test repository.

- Mail the official copy (no photocopies) of the test scores in the original sealed envelope to the address at the end of this guide.
